Albanese Consulting, Inc.
319 E. Madison Street
Springfield, IL 62701

Dear Matt:

I am pleased to write a letter of recommendation on behalf of the Internet and Application Development services provided by Albanese Consulting.

We have always been very pleased with the return on investment in using Albanese Consulting, particularly in regards to your affordable rates, detailed documentation of consulting time spent, and the overall cost-effectiveness of your consulting services. Albanese Consulting brought the project in under budget and on time.

We are very satisfied with the delivered product, our new web site for a statewide program, the Illinois Life Span Project. This was a particularly complicated project involving staff and volunteers in the design of a web site with searchable databases that could be self-administered.

We were impressed with the time you and your staff spent in understanding our needs and working with us in properly applying the technologies we chose. Most importantly, the responsiveness to our questions and service requests has been outstanding. You and your people have been there by email, phone, or in-person whenever needed.

Albanese Consulting receives my highest recommendation. It is important to note that we are choosing Albanese once again for a new project. What better testimonial that to select a business again? Please feel free to have your potential customers contact me at 708-206-1930 if they should have any questions or require a reference for your business services.

Sincerely,

Gordon T. Johnson
Director of Development/MIS
The Arc of Illinois
